BACKGROUND

The Higher Education Equipment Trust Fund (HEETF, or the Fund) was established in 1986 by the General Assembly to provide supplemental funding to upgrade equipment needed for instruction and research. At the time, a large infusion of equipment was needed in a short period of time, and the Commonwealth could not afford to cover the cost via direct appropriations, relying instead on bonds. In 1999, the General Assembly removed its requirement of leases for participation in Virginia's equipment leasing program, now known as the Equipment Program. The State Council of Higher Education for Virginia (SCHEV, or the Council) shares administrative responsibility for HEETF with the Virginia College Building Authority (VCBA, or the Authority) and the Virginia Department of the Treasury.

Financing for HEETF is managed by the Department of the Treasury, serving simultaneously as staff to the VCBA. The Authority issues revenue bonds with a final maturity of up to seven years, with the term of the bonds matched to the useful life of most eligible equipment to maximize its ability to leverage debt financing (note: personal computers and other shorter-lived equipment may be surplussed at three years). Institutions purchase equipment using their operating funds, then submit for reimbursement from the Fund upon receipt of purchases. The Treasury Board pays debt service on corresponding revenue bonds using funds appropriated by the General Assembly.

Since 1996, the Fund has been used to accomplish the following goals:

- **Significantly reduce the amount of obsolete technology and equipment;**
- **Provide every student with access to an appropriate level of information and technology;**
- **Establish a statewide network that supports and encourages sharing and collaboration;**
- **Provide every faculty member with appropriate equipment and training to use technology in support of teaching and learning;**
- **Support faculty in the introduction of new methods of instruction and learning, provide courses customized to student needs and take advantage of distance-learning opportunities; and**

- **Install high quality, easy-access, network-deliverable student support services, such as transcripts, grades, class scheduling and account balance and payment information.**

The following procedures for operation of HEETF reflect the necessity of maintaining a working relationship between VCBA and the institutions, and to provide state oversight of purchases. State agencies (Department of Accounts, SCHEV and Treasury) support VCBA, and the procedures incorporate internal controls associated with these agencies.

I. PROCESS

Institutions are required to annually enter into a facilities agreement **or a supplement, as required**, which outlines the terms for involvement in HEETF. The Facilities Agreement is the contractual agreement between the institution and VCBA. Article IV, Section 4.1 of the Facilities Agreement states that an institution should complete the acquisition and installation of equipment prior to the issuance of each new series of bonds (i.e., by the end of the fiscal year for which HEETF funds are allocated). VCBA coordinates this process. Institutions use SCHEV guidelines (see Attachment A for categories excluded from funding) to create their own Equipment Wish List (see Attachment B for required format) which are then submitted to SCHEV. SCHEV reviews the equipment lists to assure VCBA of their compliance with legislation.

Institutions may amend their original wish lists during the current fiscal year to reflect changing business needs, such as new research endeavors, significant price changes and other unforeseen changes, provided the equipment changes meet the requirements outlined in this policy. Institutions must submit their amended wish lists to SCHEV for final approval.

II. GUIDELINES AND KEY TERMS FOR CREATING AUTHORIZED LISTS AND REQUISITION FORMS

SCHEV manages receipt and processing of all authorized lists (“wish lists”) and requisition forms. Once SCHEV approves a purchase, staff forward the documentation to the Department of the Treasury for processing. This review process ensures that the acquired equipment is authorized and meets legislative intent, as determined by SCHEV.

SCHEV maintains a cross-reference system of authorization and approvals for payment, using this information to control approvals to the authorized items for each institution. SCHEV forwards approved purchase documents to Treasury and returns incomplete documents to the institution.

Upon receipt of appropriate documentation and confirmation of approval, Treasury’s Trust Accounting staff determines whether requests fall within an institution’s allocation limits and issues reimbursement via Cardinal.

The following section provides definitions and instructions for completing the process outlined above.

Reference Number

Each form should include a reference number for each individual item, using the following layout.

	Agency #	Year #	Item #	Allocation #
# of Digits	3	2	4	1

For example, if Willam and Mary (Agency 204) purchased a piece of equipment with a designated item number of 4 and an allocation number of 1, the reference number would appear as 2042200041.

Agency numbers (i.e., agency codes) are included in Attachment C. Year numbers should reflect the calendar year in which the allocation begins, even if the requisition form reflects a purchase made in a later year. Item numbers represent the identification number assigned by the institution on the authorized list of equipment. Allocation numbers should be coded as “1,” unless an institution receives more than one HEETF allocation per calendar year.

The reference number is of critical importance. It serves as a cross-reference for SCHEV’s authorization records and VCBA’s payment process. Requests for reimbursement cannot be reviewed without including all corresponding reference numbers. Each reference number must relate to an identifiable piece of equipment. If a single piece of equipment includes multiple components, each component must have the same reference number.

Functional Unit

A functional unit can be a standalone piece of equipment or an assemblage of instruments, modules or components, which together perform a specific task and remain assembled as a

unit. Examples of functional units are an oscilloscope with probes, a recording spectrometer with demountable cell assembly and windows, or a computer with a printer.

Split Funding

Equipment may be split funded, with VCBA paying for a percentage of the equipment and the institution covering the rest via other funds. When recording a split-funded item, code the Fixed Asset Accounting and Control (FAACS) transaction using the split funding fields.

Payment Voucher

Upon receipt and acceptance of the equipment and vendor's invoice, the institution generates a payment voucher. An appointed institution official certifies receipt of the purchased property by signing the requisition form. The appointed official must complete a Trust Signature Form with the name and initials of the signee, to be submitted to Treasury. This form can be found on the [Department of the Treasury website](#).

Requisition Form

The institution completes this document (see Attachment F), including a detailed list of equipment purchased, and submits it to SCHEV for approval. Both the [SCHEV website](#) and the [Department of the Treasury website](#) include links to these forms, which are updated annually.

Institutions should submit copies of any completed requisition form via email to heetf@schev.edu. Submissions must include a verified digital signature via Adobe PDF for Treasury to process requisitions. Institutions are not required to submit further supporting documentation (e.g., voucher/purchase order, vendor's invoice, etc.). However, institutions should retain copies of all corresponding files for verification purposes. This represents a streamlining of earlier processes, but may be reversed at the discretion of SCHEV or Treasury on an institutional basis.

Tags

All equipment purchased using HEETF funding must have an inventory tag. In instances where a piece of equipment includes multiple components to create a functional unit, the institution should tag the most expensive component. For instance, computer monitors and keyboards costing less than \$200 need not be tagged independently from their corresponding CPU, but the CPU itself must be tagged. Similarly, when several pieces of equipment are used

together to form a single, functioning unit (e.g., an electronic classroom), only the largest few pieces of equipment should be tagged.

Freight Charges

Freight charges may only be paid using HEETF resources if they are included in the total cost of the equipment.

Installation Costs

Do not include installation costs with the cost of equipment unless they are connected to setting up the equipment. Building modifications, new electrical outlets, etc. are not permissible costs under HEETF, but unpacking and testing costs are allowed.

Request for Reimbursement

Submit all requisition forms (requests for reimbursement) to SCHEV for verification of equipment authorization and approval at heetf@schev.edu. VCBA does not pay vendors directly and will not process reimbursement without prior SCHEV approval.

III. RELATED ACTIVITIES

a. Submission of Unauthorized Items

SCHEV will return any unauthorized requests for reimbursement to the submitting institution. Institutions must contact SCHEV's HEETF coordinator to confirm any changes or updates to their authorized wish lists.

b. VCBA Budget

Treasury submits details on debt service associated with VCBA's HEETF bonds to the Department of Planning and Budget (DPB) for each upcoming fiscal year, allowing DPB to determine the appropriation needed for debt payments in the Governor's budget bill.

c. Payment Transfer Process

DPB initiates transfer payments by transferring the general fund portion of debt service from the Treasury Board to each institution. The nongeneral fund portion is included in each institution's educational and general fund (E&G) appropriation. The Department of Accounts (DOA) processes expenditure payments from institutions to VCBA to the total amount of reimbursement, allowing VCBA to pay the Trustees.

d. Trade-Ins

Institutions may trade in “active” equipment purchased with HEETF funds without written permission of VCBA, provided i) the institution does not involve current year HEETF funding; ii) new equipment replacing the traded equipment is treated as a HEETF purchase with the same purchase year and reference number; iii) the trade-in represents a one-to-one HEETF replacement; and iv) the institution maintains adequate records of the transaction to track the new replacement equipment back to the original item (e.g., purchase year, HEETF reference number, etc. Description Field 3 may be used to note that the new equipment is a replacement item). Further, any replacement equipment must meet standard HEETF requirements and cost at least as much as the depreciated value of the original equipment, but cannot fall below the \$500 minimum threshold.

Note: Replacement equipment **does not** have to be identical to the original equipment.

e. Used/Refurbished Equipment

Institutions may use HEETF funds to purchase used or refurbished equipment as long as the warranty and expected active life match those of its brand-new equivalent.

f. Lost or Stolen Equipment

Lost or stolen items purchased with HEETF resources must be replaced with either the same or similar equipment that costs at least as much as the depreciated value of the original equipment. Calculate the Net Book Value (NBV) to match the useful life of the lost or stolen equipment (i.e., between one and seven years). The value of the replacement equipment cannot fall below \$500, regardless of the NBV of the original item. As with trade-in equipment, institutions must maintain records of replacement equipment, applying the original purchase year and reference number of the stolen equipment to the replacement equipment.

g. Use of Older Equipment

Institutions may use equipment purchased with HEETF resources beyond its “active” life in programs other than instruction, research and academic support. For example, computers originally purchased for lab use by students may be used for administrative purposes. If an institution chooses to continue using equipment that has exceeded its useful life, the corresponding equipment inventory data should be updated to reflect the change in use, applying the discipline code 0000, updating the program and location, etc. Equipment must still be maintained in good working order.

h. Equipment Audits

SCHEV may conduct on-site verification of equipment location and use. Sampling from an institution's inventory helps to ensure that equipment meets the requirements of both the Facilities Agreement and SCHEV guidelines.

ATTACHMENT A: EXCLUSIONS FROM HEETF ELIGIBILITY

Note: Almost all exclusions are policy related, which is under SCHEV's purview. Contact SCHEV's HEETF coordinator if unsure about a particular piece of equipment.

Excluded Item(s)	Program(s)
a. Library books, films and library materials	All Programs
b. Fixed library shelving	All Programs
c. Office accessories (e.g., blinds, carpets, file cabinets, etc.)	All Programs
d. Office furniture (e.g., desks, chairs, tables, etc.)	All Programs
e. Transportation equipment	All Programs
f. Equipment usually affixed to a building or functional as a part of an operating system of a building	All Programs
g. Climate control and security systems	All Programs
h. General telecommunications equipment	Public Service, Physical Plant
i. Equipment with a useful life of less than three years for shorter-lived equipment (i.e., computers) or seven years for all other equipment	All Programs
j. General applications software (e.g., Microsoft 365)	All Programs
k. Fabrications (to build or construct customized equipment)	All Programs

ATTACHMENT B: AUTHORIZED EQUIPMENT LIST FORMAT

Submit as an Excel file to SCHEV at heetf@schev.edu.

ATTACHMENT F: 2025 HEETF REQUISITION FORM

EXHIBIT A

Agency Code: _____

Requisition Number: _____

Date: _____

VIRGINIA COLLEGE BUILDING AUTHORITY
EDUCATIONAL FACILITIES REVENUE BONDS, SERIES 2024A EQUIPMENT
REQUISITION
2025 Acquisition Fund

State Treasurer
Richmond, Virginia

Page --- of ---

Goods or services received on or before 6/30/25: \$_____

Goods or services received after 6/30/25: \$_____

On behalf of _____ (the 'Institution'), this is to request the transfer of \$_____ (total for this request) from the 2025 Acquisition Fund established by the Virginia College Building Authority ('VCBA') pursuant to the issuance of its Educational Facilities Revenue Bonds, Series 2024A. I hereby certify that this amount will be used to reimburse the Institution for the cost of equipment: (1) in accordance with the procedures established by the State Council of Higher Education; and, (2) as defined in Chapter 1 2, Title 23.1, Code of Virginia of 1 950, as amended.

I further certify that the corresponding Cardinal vouchers have been submitted to the Department of Accounts' Cardinal system and that payment for the cost of equipment has been made. A list of this equipment is provided as Attachment A.

I understand that the Department of the Treasury will process a Funds Receipt entry to record the reimbursement in Cardinal. Unless alternative instructions are provided, all reimbursements will be recorded to Account 255470, Fund 03000. These amounts will then be appropriately allocated by this Institution by Journal Voucher. Alternative instructions are restricted to a single line of Cardinal coding.
